

REACH Declaration of Compliance

Vision Engineering Ltd is committed to meeting the requirements set out in REACH Regulation EC 1907/2006, aiming to improve the protection of human health and the environment through safe usage of chemical substances contained with preparations and articles.

This declaration is based on Vision Engineering's understanding of the requirement of the REACH Regulation and knowledge of the material that go into its products. This declaration is with respect to the candidate list of 235 issued in June 2023 by the ECHA. Vision Engineering declares:

- Products produced by Vision Engineering do not contain substances intended to be released under normal or reasonably foreseeable conditions of use and do not contain any Substance of Very High Concern (SVHC) that exceed 1 ton per year. Vision Engineering continuously reviews the candidate list to ensure REACH conformity.
- Vision Engineering continues to evaluate its suppliers, through material composition declarations and material reviews, and declares that to its knowledge Vision Engineering's products and packaging do not contain more than 0.1% by weight of SVHC Candidate substances.
- There are no known Annex XVII restricted substances or Annex XIV substances subject to authorisation contained in Vision Engineering's products and packaging.

Signed

John Marshall

Group Quality Assurance Manager
